

## **Dr Subrota Hati is honoured with prestigious BRICS Young Scientist, DST (GoI), New Delhi**

Dr. Subrota Hati working as Assistant Professor in Dairy Microbiology Department, SMC College of Dairy Science, Kamdhenu University, Anand has been selected as the prestigious BRICS Young Scientist Award (Brazil, Russia, India, China and South Africa) in Health care category, Department of Science and Technology (DST), New Delhi on the basis of his research works, research publications, Awards, projects and Biodata. This type of BRICS Young Scientist is given to only curious young scientist upto the age of 40 years. Dr. Hati is the first person receiving this coveted BRICS Young Scientist in Animal Sciences.

The BRICS Young Scientist Conclave hosted by India (26-30 September 2016), provided an opportunity to engage and network young scientists of BRICS countries. Initiated at the Second BRICS Science, Technology and Innovation Ministerial Meeting at Brasilia (18 March 2015), the BRICS Young Scientist Forum aims at BRICS Youth connectivity. The Second BRICS Young Scientist Forum was hosted by China in Hangzhou in July 2017. South Africa hosted the third Conclave during June 2018 in Durban. The Fourth BRICS Young Scientist Forum was hosted by Brazil in Brasilia in November 2019. Last, BRICS Young Scientist Forum was hosted by Chelyabinsk, Russia in September 2020. In 2021, the conclave will be hosted by the National Institute of Advanced Studies, Bengaluru (NIAS), India through the Zoom platform. The Conclave will provide a high-level platform for academic and policy exchange among talented young scientists as well as scientific personnel from BRICS countries too.
