## Message

I am indeed very happy to know that College of Dairy Science, Kamdhenu University, Amreli is bringing out its placement brochure for the Third batch of B.Tech. (Dairy Technology) students.

Kamdhenu University extends its legacy of imparting quality education and generating empowered youth for Dairy sector. Over a short span of time, students of College of Dairy Science, Amreli, have positioned themselves in Dairy Industries in India and abroad. To remain at the forefront, the Institute is exploring its potential for establishing a strong Industry-Academia Interface.

With the help of our highly skilled faculty, drawn from almost all corners of India, we endeavor to develop students to cater the contemporary industrial needs. We are proud to have a very inquisitive, talented and energetic group of students. I am sure each of them will prove to be an asset to the organization, they associate with.

I extend a very warm welcome and invitation to prospective employers for Campus Placements. I believe the relationship between industry and academia would prosper and strengthen by interactions with the faculty and students. I wish good luck to the students for a bright and successful career ahead.

## Message

I am pleased to present and recommend the student's of College of Dairy Science, Kamdhenu University, Amreli who are pursuing B.Tech. (Dairy Technology) course. Our students are trained by dedicated faculty members who work hard to groom them in the desired direction. The all round experience at Kamdhenu University campus equip these students thoroughly both in concept and application.

The success of future dairy technocrats will depend on their swiftness in responding to uncertain situations, adaptiveness in dealing with complex and multi factorial global environs and ability to innovatively leverage the opportunities arising with the advent of fast changing technologies.

The institute is contributing to the social needs of the society and ensuring sustainable development of the country. Our alumni have achieved tremendous secession all spheres and this bears an eloquent testimony to our efforts.

I take pride in cordially inviting you to participate in our endeavor and look forward to welcome you for the recruitment program offering suitable job opportunities to our budding dairy technocrats.

# Genesis of College

Contribution in India for the milk and milk industry at global level is highly substantial and appreciable too. In saurashtra region, Dairy industry is still in developing stage compared to other parts of Gujarat. In last six year Gujarat Co-operative Milk Marketing Federation has extended their partner list in saurashtra region and now it also includes Amreli, Junagadh, Bhavnagar, Kutch and Porbandar district co-operatives as their partners. Hence, there is a need of dairy technologists for the efficient growth of dairy industry in this region. At present, we find shortage of such dairy technologists in spite of the existing colleges for this course. Moreover, considerable numbers of students from existing colleges of this course also opt for further study in India or abroad, which also adds in this crisis. By considering above mentioned situations as well as to strengthen dairy education and also for the development of dairy industry in specifically Saurashtra region as well as to support the dairy sector of other parts of Gujarat and India in general, the Government of Gujarat has started College of Dairy Science at Amreli on 1<sup>st</sup> August 2010 under the visionary guidance of former Hon. Chief Minister and present Hon. Prime minister, Shri Narendra Modi and able leadership of former Agricultural Minister, Shri Dilip Sanghani.

This college provides a platform for the overall development of the students and caters the need of new dairy technologist to the fast developing dairy field. It is the only college of dairy science in Saurashtra region, being second in Gujarat and 17<sup>th</sup> in India as a whole. The College of Dairy Science, Amreli is the first college of the Kamdhenu University, an exclusive university started by Gujarat Governmnet for the individual development of Dairy Science, Veterinary Sciences and Fisheries.

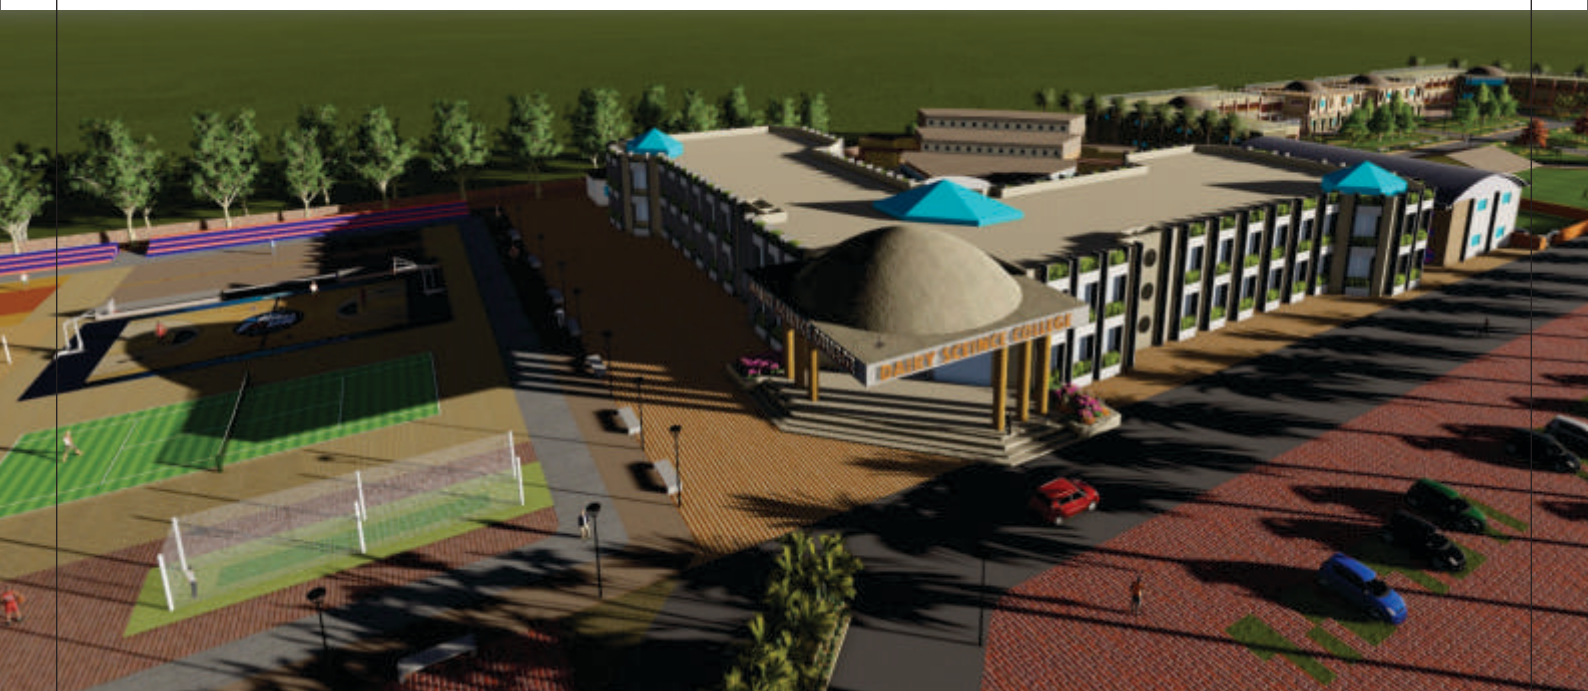

B. Tech. (Dairy Technology) is a four year course in which students are imparted with theoretical and practical knowledge in a five different disciplines like Dairy Technology, Dairy Chemistry, Dairy Microbiology, Dairy Engineering and Dairy Business Management. They learn the principles of technology, microbiology, chemistry, engineering and business management to develop new and improved methods in production, preservation, marketing and utilization of milk and milk products.

One year industrial training in the dairy plant is also given to the students. The training provides a platform to enhance the practical knowledge and also boost confidence level of the students. In this training, all sections/ departments are covered from purchase of raw materials to finished product marketing. Students are given training of milk processing, product manufacturing, product testing, packaging, cleaning, maintenance aspects, account, purchase, marketing etc.

During hands on training and experiential learning, students prepare a detailed report on business plan/ entrepreneurship for production of dairy products in the area of specialized processing from procurement of raw material to processing including packaging and storage, product manufacturing, organize resources and utilities, selling the product, maintain accounts and documents, wind up production etc. Twenty five credits are allotted for hands on training in fifth and sixth semester. The evaluation of this training is conducted by the committee appointed by the Principal and Dean of the college.

At present, students of our college are undergoing training in different well known dairy plants of Gujarat like Amul Dairy; Anand, Amul-Fed; Gandhinagar, Sabar Dairy; Himmatnagar, Sumul Dairy; Surat, Sarvottam Dairy; Bhavnagar, Sursagar Dairy; Surendranagar, Panchamrut Dairy; Godhra, Mother Dairy Fruits & Vegetables Pvt. Ltd; Junagadh and AMR Dairy, Amreli.
