Handholding in Educational Technology During Pandemic !

The COVID-19 crisis has exacerbated the digital divide, but at the same time enforced Colleges, Researchers and Students to embrace innovations. The available hardware and software were made functional, proving the dictum 'Necessity is the mother of all invention'. This is the positive streak in Educational Sector.

In Kamdhenu University, Director of Information Technology made all out efforts to make online education, meetings and webinars truly functional. There was flurry of online events, webinars, meetings etc. To enlist few - 'National Fish Farmers Day', Corona Prevention Programme, Selfie with Sapling, PFMS Training etc. Other events like Independence day, Van Mahotsav, International Yoga Day etc., were celebrated with enthusiasm.

The most noteworthy event was celebration of Valedictory Ceremony of Decennial Year, Kamdhenu University in the form of Technical Webinar on "Role of Animal Husbandry Sector during Post COVID era", graced by Hon'ble Governorshri of Gujarat, Shri. Acharya Devvratji, Hon'ble Minister of Animal Husbandry, GoG, Shri. Kunvarjibhai Bavaliya, Secretary of Animal Husbandry, Shri. Manish Bhardwaj, IAS. Dr. A. K. Gahlot, Former Vice Chancellor, RAJUVAS, Bikaner delivered key note address in this Webinar. On personal front, participated in Webinars on NEP, Reducing Carbon Foot Print in Dairy Sector, Cow Based Entrepreneurship Seminar and others.

In these testing times, Kamdhenu University has made extra efforts for handholding in all spheres of University activities. At the end, I wish to quote from Chris Callison and Geoff Purcell's Book - Practical Knowledge Management from Leading and Learning Organizations. "You can't manage knowledge - nobody can, what you can do is to manage the environment in which knowledge can be created, discovered, captured, shared, distilled, validated, transferred, adopted, adapted and applied".

Stay safe and healthy.

Jai Hind !

Dr. N. H. Kelawala
Vice Chancellor
